

STATEMENT OF PURPOSE

To,

The Visa Officer,

High Commission of Canada in India.

Subject: Request for grant of a permit to study

I, Srinivasa Reddy, am an Indian citizen with a valid passport number IND M7894561. I was born on May-30-1999, in Secunderabad, Telangana. I live in Hyderabad city.

The University of British Columbia (UBC) has accepted me as a full-time on-campus student. My student number is 2024092007, and I will be pursuing a Master's in Computer Science. My studies are set to commence on November 7, 2024.

I am giving my other relevant details for your reference.

ACADEMIC BACKGROUND:

I have a BTECH (CSE) in Computer Science Engineering, from August 2018 to. Chaitanya Bharathi Institute of Technology is a private engineering college located in Gandipet, near the Financial District, Hyderabad, Telangana, India, awarded my degree. I joined my college in July 2022 and cleared the final examination in July 2022, passing with an overall CGPA of 8.77. Subjects I pursued for my B-Tech include, among others – Extracurricular activities with my writing profession.

My intermediate (pre-university) education was from Narayana Junior College, where I joined in June 2016 and passed in March 2018 with 78% marks. My high school education was at Nalanda High School and I passed in March 2016. I cleared my final Class X examination with a CGPA of 9.2.

WORK EXPERIENCE:

I have two years of full-time work experience as a software developer. I worked at Accenture Solutions Private Limited from August 2022 to July 2023.

As a software developer focused on building frontend websites, my responsibilities include implementing and overseeing development workflows, ensuring precision and efficiency in creating responsive and user-friendly interfaces, and strictly following industry standards and best practices to deliver high-quality web applications.

My hands-on experience as a software developer made me realize the importance of up skilling to advance to better positions with higher compensation. I am now focused on deepening my technical knowledge and expanding my skill set. Pursuing specialized studies in software development is essential for my future success.

Why British Columbia University :

The University of British Columbia (UBC) stands out as a premier institution for pursuing my master's degree, primarily due to its commitment to excellence in research and innovation. UBC's faculty comprises renowned experts who bring a wealth of knowledge and experience, fostering an environment that encourages cutting edge research and collaborative learning. The university's state-of-the-art facilities and resources provide an ideal setting for students to engage in rigorous academic pursuits and practical applications of their studies. The emphasis on interdisciplinary learning at UBC will allow me to explore various facets of software development, enhancing my understanding and equipping me with the skills necessary to excel in a rapidly evolving industry.

Furthermore, UBC's vibrant and diverse community offers a rich cultural and intellectual experience. The opportunity to interact with peers from different backgrounds and disciplines will broaden my perspectives and enrich my educational journey. The university's strong industry connections and focus on real-world applications will also provide valuable opportunities for internships and networking, positioning me well for future career advancement. Choosing UBC for my higher studies aligns perfectly with my goal of deepening my expertise and expanding my horizons in the field of Computer Science.

WHY STUDY IN CANADA:

Choosing Canada for my higher studies feels like a natural fit. The country is renowned for its high-quality education system, diverse cultural experiences, and welcoming atmosphere for international students. Canada's focus on research and innovation makes it an ideal place to delve deeper into software development. The tech industry here is booming, offering a supportive environment for learning and growth. Living in such a multicultural society will not only broaden my horizons but also help me adapt and thrive in a globalized world.

The University of British Columbia (UBC) is my top choice for several reasons. UBC consistently ranks among the best universities in the world, known for its top-notch research facilities and expert faculty. The curriculum is comprehensive, covering both the theoretical and practical aspects of software development. This means I'll get a well-rounded education that prepares me for real-world challenges. UBC's strong connections with the tech industry offer fantastic opportunities for internships and networking, crucial for gaining hands-on experience and making professional contacts. Plus, the vibrant campus life and UBC's location in Vancouver, a city with a thriving tech scene, make it an exciting place to study and live. This combination of academic excellence, industry connections, and an inspiring environment is why I believe UBC is the perfect place for my master's degree in Computer Science.

FUTURE PLANS:

In the short term, my primary focus will be on my studies in Canada, where I aim to acquire a specialized education in software development to ensure a strong career in WebDev World. I plan to take full advantage of this opportunity to deepen my technical expertise and gain valuable insights into the latest industry trends and practices.

Once I complete my studies in Canada, I intend to return to India to pursue advanced job roles in the software development field. I can approach my previous employer and express my interest in any suitable vacancies, leveraging my enhanced skills and international exposure. Alternatively, I will explore opportunities with other leading tech companies. Hyderabad, with its booming tech industry, offers substantial opportunities for software developers. I aspire to work with top-tier companies such as Amazon, Deloitte, IBM, Genpact, and others. My goal is to leverage my Canadian degree and global experience to secure a rewarding position in the software development industry, contributing to cutting-edge projects and driving innovation.

Ties to India:

India is my homeland, and I currently reside in Hyderabad with my parents. My long-term future is firmly rooted here. Studying in Canada is a strategic step towards achieving a successful career in India. I intend to return with a robust resume that showcases advanced skills and international experience, opening numerous doors of opportunity in the tech industry.

Upon my return, I plan to leverage my education to secure a position with a leading tech company. Living and working in India will allow me to support my family, particularly as my parents age. My goal is to contribute to the tech landscape in India while staying close to my roots and family.

Financial Ability:

I have already made a tuition fee payment of CAD 357725.64 for my studies. To cover my living expenses in Canada, I have arranged a Guaranteed Investment Certificate (GIC) valued at CAD 20,635.00 through the Canadian Imperial Bank of Commerce (CIBC).

Additionally, I have obtained a professional assessment of my family's net worth, with a detailed report prepared by a chartered accountant. The original report is included with my application for reference.

Chartered Accountant's Report				
SL NO	Particulars	INR	CAD(variable)	Reference
1	A.BankBalances/Liquid Assets	4,095,000.00	67574.17	A
2	B. Immovable Assets	13,200,000.00	217821.51	B
3	C. Annual Income	1,883,201.00	31075.88	C
4	D. Immovable Assets	2,500,000.00	41254.07	D
TOTAL		21,678,201.00	357725.64	
Note: An exchange rate of 1 CAD = 60.60 INR was applied as of the date of report creation on 26-07-2024				

Language Proficiency:

On July-07-2024, I took the IELTS Academic exam to demonstrate my English language skills. I achieved a CEFR Level B2, with an overall band score of 6.0, including 5.5 in listening, 5.0 in reading, 6.0 in writing, and 6.5 in speaking.

Additionally, I completed the Duolingo English Test on May-31-2024. I earned a total score of 135, with specific scores of 140 in literacy, 145 in comprehension, 120 in conversation, and 100 in production.

In Conclusion:

I have completed my application to the best of my ability, ensuring that all details are accurate and comprehensive. I have attached the required documents according to the checklist provided by Immigration, Refugees and Citizenship Canada (IRCC) for study permit applications.

Should you need any additional information or have further questions, please feel free to contact me at **040-66444539** or via email at **srinivasar3005@kansaz.in**. I look forward to a positive outcome regarding my study permit application.

Yours sincerely,

Srinivasa Reddy
